

Dear Friend,

I am a 12 year old girl living in Lebanon. My country is in the middle of a civil war. It has been going on for five years, and we are not sure when it will end. Most of the conflict comes from political problems that have pitted Muslims and Christians against each other

My family is trying to move to North Carolina. Has the United States ever had a civil war? Was North Carolina involved? If so, what were the causes? How did people know which side they were on? Were people in North Carolina all on one side? Is there still conflict over the same things, if this happened a long time ago? Who were the leaders, and what were they like?

Thank you for answering my letter. My family will be very grateful.

Sincerely,

Adel
